

How to get to the tour by car

Note: The intersection of Queen Street East and Kingston Road is closed for construction.

To avoid the intersection closure and resulting traffic, choose an east-west road further north -- Gerrard or Danforth – to get to the general area, then come south into the neighbourhood via Victoria Park (which takes you close to studio #1 at 395 Scarborough Road), Main, Woodbine, or Coxwell (from Coxwell, go to studio #13 at 43 Robbins Avenue, and pick up a map there to guide you to #12).

Other options for coming from the west include Dundas or Lakeshore; be aware that these are the busiest routes for those avoiding the closure. Or you can take Queen Street, Eastern Avenue, or Lakeshore as far as Coxwell and turn left on Coxwell to begin at studio 13, and pick up a map there for the route to studio 12.

Coming from the east, you can take Kingston Road into the neighbourhood.

There are maps available at studios 12 and 13 to show you how to avoid the intersection closure. Or you can download them here:
